**Equality impact assessment – Scoping**

**STA Edoxaban tosylate for the treatment and secondary prevention of deep vein thrombosis and/or pulmonary embolism**

**Batch 36**

The impact on equality has been assessed during this appraisal according to the principles of the NICE Equality scheme.

1. Have any potential equality issues been identified during the scoping process (draft scope consultation and scoping workshop discussion), and, if so, what are they?
-------------------------------------------------------------------------------------------------------------------------------------------------------------------------

No equality issues were identified.
-------------------------------------

2. What is the preliminary view as to what extent these potential equality issues need addressing by the Committee?
---------------------------------------------------------------------------------------------------------------------

Not applicable.
-----------------

3. Has any change to the draft scope been agreed to highlight potential equality issues?
------------------------------------------------------------------------------------------

No.
-----

4. Have any additional stakeholders related to potential equality issues been identified during the scoping process, and, if so, have changes to the matrix been made?
------------------------------------------------------------------------------------------------------------------------------------------------------------------------

No.
