GUIDANCE EXECUTIVE (GE)

Consideration of consultation responses on review proposal

Review of 49 Guidance on the use of ultrasound locating devices for placing central venous catheters

This guidance was issued September, 2002 with a review date of April, 2010

Background

At the GE meeting 15 May 2010 it was agreed we would consult on the review plans for this guidance. A four week consultation has been conducted with consultees and commentators and the responses are presented below.

Proposal put to consultees:	The guidance should remain on the 'static guidance list'. That we consult on the proposal.
------------------------------------	--

GE is asked to consider the original proposal in the light of the comments received from consultees and commentators, together with any responses from the appraisal team. It is asked to agree on the final course of action for the review.

Recommendation post consultation:	The guidance should remain on the 'static guidance list'.
