Equality impact assessment – Guidance development

STA Pertuzumab in combination with trastuzumab and docetaxel for treating HER2-positive metastatic or locally recurrent unresectable breast cancer

The impact on equality has been assessed during this appraisal according to the principles of the NICE equality scheme.

Consultation

- | |
|---|
| 1. Have the potential equality issues identified during the scoping process been addressed by the Committee, and, if so, how? |
|---|

There were no equality issues identified during the scoping process.
--

- | |
|--|
| 2. Have any other potential equality issues been raised in the submissions, expert statements or academic report, and, if so, how has the Committee addressed these? |
|--|

There were no equality issues raised in the submissions, expert statements or academic report.
--

- | |
|--|
| 3. Have any other potential equality issues been identified by the Committee, and, if so, how has the Committee addressed these? |
|--|

There were no equality issues identified by the Committee.
--

4. Do the preliminary recommendations make it more difficult in practice for a specific group to access the technology compared with other groups? If so, what are the barriers to, or difficulties with, access for the specific group?

No

5. Is there potential for the preliminary recommendations to have an adverse impact on people with disabilities because of something that is a consequence of the disability?

No

6. Are there any recommendations or explanations that the Committee could make to remove or alleviate barriers to, or difficulties with, access identified in questions 4 or 5, or otherwise fulfil NICE's obligations to promote equality?

No, none identified

7. Have the Committee's considerations of equality issues been described in the appraisal consultation document, and, if so, where?

No, none identified

Date: 29 July 2013

Final appraisal determination

(when an ACD issued)

1. Have any additional potential equality issues been raised during the consultation, and, if so, how has the Committee addressed these?
No.

2. If the recommendations have changed after consultation, are there any recommendations that make it more difficult in practice for a specific group to access the technology compared with other groups? If so, what are the barriers to, or difficulties with, access for the specific group?
Not applicable.

3. If the recommendations have changed after consultation, is there potential for the recommendations to have an adverse impact on people with disabilities because of something that is a consequence of the disability?
Not applicable.

4. If the recommendations have changed after consultation, are there any recommendations or explanations that the Committee could make to remove or alleviate barriers to, or difficulties with, access identified in questions 2 and 3, or otherwise fulfil NICE's obligations to promote equality?
Not applicable.

5. Have the Committee's considerations of equality issues been described in the final appraisal determination, and, if so, where?

No, none identified.
