

Pembrolizumab for treating locally advanced or metastatic urothelial carcinoma after platinum-containing chemotherapy

Information for the public

Published: 28 April 2021

www.nice.org.uk

Pembrolizumab is not normally available on the NHS for treating locally advanced or metastatic urothelial carcinoma in adults who have had platinum-containing chemotherapy. Your doctor should talk with you about other treatment options. If you are already taking it, you should be able to continue until you and your doctor decide when best to stop.

Information and support

The [NHS website](#) may be a good place to find out more.

These organisations can give you advice and support:

- [Action Bladder Cancer UK](#), 0300 302 0085
- [Fight Bladder Cancer](#), 01844 351621
- [Macmillan Cancer Support](#), 0808 808 00 00
- [Cancer Research UK](#), 0808 800 4040

You can also get support from your local [Healthwatch](#).
