Equality impact assessment – Scoping

STA Tafasitamab with lenalidomide for treating relapsed or refractory diffuse large B-cell lymphoma

The impact on equality has been assessed during this appraisal according to the principles of the NICE Equality scheme.

1. Have any potential equality issues been identified during the scoping process (draft scope consultation and scoping workshop discussion), and, if so, what are they?

No potential equality issues have been identified during the scoping process.

2. What is the preliminary view as to what extent these potential equality issues need addressing by the Committee?

N/A

3. Has any change to the draft scope been agreed to highlight potential equality issues?
--

No changes were made to the draft scope to highlight any potential equality issues.

4. Have any additional stakeholders related to potential equality issues been identified during the scoping process, and, if so, have changes to the matrix been made?
--

No additional stakeholders related to potential equality issues were identified during the scoping process.
