

# Axicabtagene ciloleucel for treating relapsed or refractory follicular lymphoma

Information for the public

Published: 7 June 2023

[www.nice.org.uk](http://www.nice.org.uk)

Axicabtagene ciloleucel (Yescarta) is not normally available on the NHS for treating follicular lymphoma that comes back after or does not respond to 3 or more systemic treatments in adults. Systemic treatments are medicines that work throughout the whole body. They can be injections, infusions or taken by mouth.

Your doctor should talk with you about other treatment options. If you are already having it, you should be able to continue until you and your doctor decide when best to stop.

## Information and support

The [NHS webpage on non-Hodgkin lymphoma](#) may be a good place to find out more.

These organisations can give you advice and support:

- [Lymphoma Action](#), 0808 808 5555
- [Blood Cancer UK](#), 0808 169 5155
- [Cancer Research UK](#), 0808 800 4040
- [Macmillan Cancer Support](#), 0808 808 0000

You can also get support from your local [Healthwatch](#).
