

NATIONAL INSTITUTE FOR HEALTH AND CARE EXCELLENCE

Indicator Equality Impact Assessment

Indicator: IND149

Subject: Contraception

1.1 Have any potential equality issues been identified during the development process?

No.

1.2 Have any population groups, treatments or settings been excluded from coverage by the indicator? Are these exclusions justified – that is, are the reasons legitimate and the exclusion proportionate?

The population for this indicator is women under the age of 54 years. Exclusions are justified due to the childbearing potential of the excluded population.

1.3 Does the indicator make it more difficult in practice for a specific group to access services compared with other groups? If so, what are the barriers to, or difficulties with, access for the specific group?

No.

1.4 Is there potential for the indicator to have an adverse impact on people with disabilities because of something that is a consequence of the disability?

No
